

PACT™ Training

Level 1 – Annual Refresher

**NOW
AVAILABLE
ONLINE**

Enhance your thermal oil safety performance with our Level 1 - Annual Refresher course.

Delivered under our industry-leading **PACT™ Partner Programme**, this course will provide operators at all levels with a comprehensive understanding of system safety controls and fire suppression systems. This is a condensed version of our Level 2 - Advanced Awareness course, providing 'critical' knowledge for learners.

Benefits:

- **Flexible timing** for the online training to suit your plant schedule and match any rotating shift patterns.
- Preventative training **brings content to life** and injects an element of urgency into learning.
- **Certification and participation tracking** for compliance.

Online Knowledge Hub

Our training is now available online via our learning management system and knowledge hub, accessed via the **MyThermalOil** portal on our website.

This allows more employees to take advantage of our interactive, incident-based e-learning solutions; improving their skills and knowledge and helping you raise awareness of thermal fluid management throughout your organisation.
